March 15, 2021

Dear Valued Patient,

It has been over 25 wonderful years since I started practicing Otolaryngology/Head and Neck Surgery in Manhattan, the past 17 in the heart of Chelsea, New York. I have been extremely blessed to practice medicine in a field that I love and have been fortunate to have the best office staff a Doctor could wish for, very bright and caring colleagues and excellent hospital staff and support services. For me, this has been an incredibly fulfilling experience taking care of each and every one of my patients since 1993.

I am writing this letter to let you know that my family and I will be relocating to Miami, Florida, early this summer for the next chapter of our lives. As of May 1, 2021, my Chelsea practice and the care of my valued patients will be transferred to the physicians at ENT and Allergy Associates.

I want to take this opportunity to thank you for placing your trust in me to provide you and your family compassionate medical care. It has been truly an honor and a privilege. Custody of the medical records, formerly held in the custody of my practice, will now be held by ENT and Allergy Associates, LLP.

I leave you in the very capable hands of my colleagues at ENT and Allergy Associates, LLP, specifically Otolaryngologists Dr. Anna Aronzon and Dr. Edward Nahm, along with Allergist/Immunologist Hale Yarmohammadi, MD and Robert Sporter, MD. They will continue to provide you and your family with superior Ear, Nose and Throat/Head and Neck Surgical care along with Allergy and Audiology services.

If you choose another practice for your medical care, your medical records shall be made available to the physician you designate. Since these records are confidential, a HIPAA compliant written authorization will be required. Please contact the office at (212) 366-0848.

On a personal note, I have greatly valued our relationship and I will certainly miss that. My best wishes to you and your family for health and happiness in your next chapters as well.

Warm Regards,

William M. Portnoy, MD FACS
